Stocking, upkeep and assortment optimisation available.

CONVENIENCE WHERE PEOPLE NEED IT

A professional vending service that adds convenience without adding day-to-day operational burden for the host location.

WORKPLACES | RETAIL | HEALTHCARE
EDUCATION | PUBLIC SPACES | COMMERCIAL SITES

SMART VENDING SOLUTIONS

THE AXIS BGI SOLUTION

We provide modern vending equipment and a managed service model that can be tailored to the needs of each location. Product selection, machine placement and replenishment can be adjusted based on traffic, demand and user preferences.

10.1-INCH TOUCHSCREEN

Clear, modern interface for product selection.

UP TO 60 SELECTIONS

Flexible configuration across six shelves.

300-600 ITEM CAPACITY

Approximate capacity depending on product sizes.

MDB COMPATIBILITY

Supports integration with compatible vending payment hardware.

REFRIGERATION

Suitable for cold beverages and temperature-sensitive products.

CLOUD MANAGEMENT

Supports remote monitoring of machine activity and performance.

DESIGNED AROUND YOUR LOCATION

Machines can be configured for different environments - from employee break areas and reception spaces to public waiting areas and busy commercial locations. We work with the host to identify a suitable placement and practical product mix.

SMART VENDING SOLUTIONS

WHAT CAN GO INSIDE?

COLD DRINKS	SNACKS	CONVENIENCE
● Bottled water ● Soft drinks ● Juices ● Sports & energy drinks ● Flavoured water	● Chips & savoury snacks ● Cookies & crackers ● Chocolate & confectionery ● Granola & protein bars ● Nuts & lighter options	● Site-specific essentials ● Seasonal items ● Locally relevant products ● Health-conscious options ● Other suitable packaged goods

PRODUCT MIX THAT CAN EVOLVE

A successful vending location should not stay static. Product performance can be reviewed and the assortment adjusted over time, helping reduce slow-moving stock while making more room for the items customers actually want.

THE GOAL: THE RIGHT PRODUCTS, IN THE RIGHT PLACE, AT THE RIGHT TIME.

SMART VENDING SOLUTIONS

A LOW-HASSLE AMENITY

For potential host locations, the value is simple: add convenient access to refreshments and everyday items without taking on the responsibility of operating the vending service.

1

SITE REVIEW

We assess the proposed location, available space, power access and traffic flow.

2

MACHINE & MIX

We recommend a machine configuration and starting product assortment.

3

INSTALLATION

The vending machine is positioned and prepared for operation.

4

ONGOING SERVICE

Stocking, product rotation, routine checks and assortment changes are managed.
